Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] Students and learners who need AI-powered academic assistance, explanations, practice and progress tracking.	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] Limited time, varying levels of subject knowledge, difficulty finding suitable explanations and dependence on internet-enabled devices.	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Pros: Search engines, textbooks, online learning resources and general AI assistants provide information and learning support. Cons: Information may be scattered, explanations may not be personalized, and students may need separate tools for learning, quizzes and progress tracking.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Students face difficulty understanding academic topics, getting quick answers to doubts, creating practice questions and maintaining consistent study progress. These problems occur frequently during regular learning and revision.	9. PROBLEM ROOT / CAUSE [RC] Lack of a single, accessible learning assistant that can provide quick academic explanations, practice support and learning progress information in one place.	7. BEHAVIOR + ITS INTENSITY [BE] Students regularly search for explanations, ask questions, revise topics and practice before assessments. The behavior is high during exam preparation and regular study.

3. TRIGGERS TO ACT [TR]

Difficult topics, unanswered academic doubts, exam preparation, need for quick explanations and the need to practice and check learning progress.

4. EMOTIONS BEFORE / AFTER [EM]

Before: Confused, frustrated, uncertain.
After: Supported, confident, motivated.

10. YOUR SOLUTION [SL]
