

Project Demo Planning

Date	1 October 2026
Team ID	SWTID-2026-8336
Project Name	EduGenie — Google Gemini Powered Learning Assistant
Maximum Marks	1 Mark

Project Demo Planning:

The EduGenie project demonstration is planned to present the problem, proposed solution, system architecture, key features, and live AI functionality in a clear and organized manner. The demonstration will show how students can use EduGenie as an AI-powered learning assistant through Gemini integration, while also highlighting the frontend, backend, database, authentication, and learning features implemented by the team. Each team member will present the section related to their assigned responsibilities.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce EduGenie, explain the challenges students face during self-learning, and present the project objectives.	2	Ragul Gandhi. B
2	Solution & System Architecture	Explain the proposed EduGenie solution, frontend, backend, Gemini API, MongoDB, authentication, and overall architecture.	3	Kamali. S
3	UI & User Authentication	Demonstrate the user interface, registration/login process, and navigation through the learning assistant.	3	Kamali. S
4	Live AI/Gemini Demonstration	Demonstrate asking questions to the AI tutor and generating learning-oriented responses using Gemini.	4	Kamali. S
5	Backend, Database & Features	Explain REST APIs, MongoDB data handling, backend functionality, and implemented learning features.	3	Kavikumar. M
6	Conclusion & Future Scope	Summarize the solution, discuss the benefits and future enhancements, and conclude the demonstration.	2	Kavikumar. M

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce EduGenie, problem statement, objectives and target users.
2	Solution Overview	Explain the solution, architecture. Technologies and Gemini integration.
3	Live Feature Demonstration	Demonstrate authentication, AI tutor and implemented learning features.
4	Q&A Session	Answer questions about the system, technologies, implementation and future scope.
